PROVEN IN THE LABS — PROVEN ON THE ROAD — PROVEN ON THE INDIANAPOLIS SPEEDWAY — and finally released to the public!

Yes, proven at Indianapolis — proven in the same test laboratories used by Ford, General Motors and Chrysler . . . proven by the world's largest automobile fleet owners! An exciting new scientific "breakthrough" that means . . . no matter what kind of car you own you can now pile on 100 miles of driving a day . . . no matter what kind of gas you use . . . pile up week, month after month and till your gas-tank as little as once a month . . . pile up 300 miles of driving a day all 365 days of the year . . . and save up to 500 gallons of gas each year!

NOW! 30 DAYS OF DRIVING ON A SINGLE TANK OF GAS!

— even more startling, now save up to $16 a month, up to 50 gallons of gas each month, without changing a single part on your car!

Laboratory reports . . . PLUS road tests conducted on Indianapolis proving grounds reveal you may now get as much as 37 miles of driving from each gallon of gas . . . save up to 50 gallons of gas each month . . . save up to $200 on your car each year!

Six months ago, for perhaps the first time in history, the United States Government issued patent protection to an invention that has been classified ILLEGAL! Sound strange? Not really here's why:

I'm sure you're familiar with the famous gasoline-economy tests run by all the major oil companies. Well, do you know that the remarkable new invention described on this page is actually banned from these tests because it is TOO EFFECTIVE! Do you know that because this invention saves so much gasoline that because it gives so much economy, it is actually ILLEGAL for a test-driver to fit one on his car! And do you know that because it boosts gasoline mileage up to 11 more miles per gallon it has actually been OUTLAWED in every recognized cross-country economy run . . . simply because the officials who conduct these tests were forced to rule that it gives all cars that have it AN UNFAIR ADVANTAGE!

In other words, if you are a person planning on entering one of these cross-country economy runs . . . then this message is not for you. YOU JUST WON'T BE ALLOWED TO USE THIS NEW INVENTION—SORRY BUT IT'S SIMPLY ILLEGAL. BUT — if you are a person who is not interested in setting any records . . . who is only interested in getting more miles per gallon than you ever dreamed possible — and doing it the very same way that many of America's leading corporations are doing at this very moment — then what you are about to read is perhaps the most thrilling and exciting news in automotive history

TEST DRIVERS REPORT UP TO 11 MORE MILES PER GALLON —

The name of this great new invention is the G. T. ENERGY CHAMBER . . . and there is no ketter way to describe to you the increased performance and economy it will give you . . . than to tell you of the "bombshell effect" it had on research scientists and test-drivers, who simply refused to believe their own gasoline gauges when they first tried it out. Look:

CUTS GASOLINE COSTS TO AS LITTLE AS 1¢ A MILE

1. When the G.T. ENERGY CHAMBER was first tested by the same research laboratories used by Ford, General Motors and Chrysler . . . results were so overwhelming, (a staggering increase of up to 68 per cent) . . . it actually lowered gasoline costs to as little as ONE CENT A MILE.

2. When tests were made by the world's leading auto rental system with this incredible money saving invention . . . and then test-run on the road and on such world famous proving grounds as the Indianapolis Speedway . . . the test-drivers of these vehicles were absolutely amazed to see big **8 cylinder sedans get better gas-mileage than small European economy cars!**

3. When large fleet owners and some of the nation's largest taxi fleets tested this great new invention to determine just how much gas it would save them . . . the results were so dramatic that within 30 days they reported savings of not hundreds but thousands of gallons of gas the very first month alone!

UP TO 500 MILES OF DRIVING FROM A SINGLE TANK OF GAS

Yes, from test after test . . . road tests, laboratory tests, tests by some of the world's most famous drivers . . . come reports of cars that drive for hundreds and hundreds of miles ON A SINGLE TANK OF GAS! Reports of test cars from Ford, General Motors, Chrysler that get more miles per gallon today than when they were brand new! Reports of big, luxury sedans that weigh 2½ times more than small European cars . . . yet get better mileage, better performance and huge dollar savings thanks to this new miracle invention . . .

BEST PROOF OF ALL!

World's Leading Rent-A-Car Company Road-Tests Amazing New Invention For 3 Solid Months . . . Then Orders Fleet Of Cars IMMEDIATELY EQUIPPED! they report "Savings of up to 84 gallons a month per car"

Yes, from one of the nation's largest automobile fleet owners comes the most dramatic proof of all . . . A company that spends more money on gasoline in one weekend than the average person spends in a lifetime . . . they tested this incredible new invention and here is what they found. BOOSTED GASOLINE MILEAGE A WHOPPING 32% . . . ON ALL CARS TESTED. Wouldn't you like to save up to $200 a year on your car? For full details read the rest of this page.

HERE IT IS — IN ACTION — The miracle G. T. ENERGY CHAMBER, caught by the eye of ultra high-speed cameras at one of the world's most famous proving grounds. Yes, here on the big viewing console you see dramatic picture-proof of tests conducted by leading automotive authorities at the Indianapolis Speedway . . . tests that PROVE you can now actually take ordinary gasoline . . . feed it into your engine in a new and different way . . . trigger it into piston-driving energy . . . and unleash a blazing source of power for your car. For full documented proof of just how this amazing new discovery can save you up to $200 in gasoline bills in the next 12 months . . . read the rest of this page. (Tests performed by official Indianapolis test driver.)

IF IT WORKS SUCH MILEAGE-MIRACLES, HOW COME THE CAR MANUFACTURERS HAVEN'T INSTALLED THIS TYPE UNIT IN THEIR CARS? — THE ANSWER IS THAT TWO ALREADY HAVE!

By now you are probably wondering just what is the G. T. ENERGY CHAMBER . . . and how does it work? Well, to make a long story short . . . if you were to look under the hood of one of those $20,000 European luxury cars like the Maseratti or the Aston-Marton, you would see sitting in those engines . . . a special gasoline unit . . . especially designed to extract more blazing power, more energy from each gallon of gasoline. This remarkable booster-unit is what gives these cars such magnificent performance . . . such TOTAL POWER . . . such increased engine efficiency . . .

And this is precisely what the G. T. ENERGY CHAMBER is designed to do — enable your engine to extract more piston-driving power, more raw blazing energy and more gasoline economy ONLY, instead of costing $100 to $150 (like the European booster-units) . . . the G. T. ENERGY CHAMBER costs but a mere fraction . . .

That's because after years of intensive research automotive experts have finally found a way to simplify these booster units . . . reduce the number of parts in each unit . . . mass produce them . . . slash costs to a mere fraction . . . and make them available at a price so low it's almost too ridiculous to mention. Why do you realize what this means to you if you are a person who is determined to save yourself up to $16 a month on your gas bills . . . up to 50 gallons of gas each month . . . yes, up to $200 a year on wasted gasoline . . .

INSTALLS IN MINUTES — PAYS FOR ITSELF IN AS LITTLE AS 15 DAYS!

It means that no matter what kind of car you now have . . . no matter how old that car may be . . . no matter what condition it is in . . . no matter how many miles you pile on each month . . . here at last is the automotive discovery you've long dreamed about . . . and has now come true.

Because, from this day on you too can now save up to 500 gallons of gas each and every year NOW you too can drive for weeks and weeks on end without ever stopping at a service station. Now you too can drive across 6 states of the union on just a single tank of gas, blaze a trail from New York to Chicago on just 2 or 3 tankfuls. In other words, perform mileage miracles that only yesterday you thought were impossible.

So if you too want to achieve the same wondrous results as America's largest automotive fleet owners, by Indianapolis test-drivers, and by research scientists at the very same testing laboratories used by Ford, Chrysler and General Motors, then take advantage of this special Free-Trial introductory offer. Remember, all you risk is the few minutes it takes to fill out the special reservation coupon below, and you have a lifetime of driving convenience and economy to gain.

THIS OFFER EXPIRES IN 15 DAYS — YOU MUST ACT NOW!

Now the price of the G. T. ENERGY CHAMBER on this special introductory offer is not the 15 or 20 dollars you might expect . . . but only $5.95. Why, you'll save up to 10 times that amount in gasoline savings in no time at all . . . not to mention the hundreds of gallons of gasoline and hundreds of dollars in money you save year after year . . .

However, due to the enormous demands of trucking companies, car-rental companies, taxicab fleets and other large users, only a limited number of G. T. ENERGY CHAMBERS can possibly be allocated each month for consumer orders. Therefore, all orders must be filled on a first-come, first-served basis. In fact, it's so easy you need not know a single thing about an engine to install it . . . and easy picture directions accompany each unit. Total installation time: 3 to 5 minutes. The Car in Front and the One in Back

"You have to watch the driver in front of you as well as the one behind you," sighed my good friend Mike. "I got a dose of both of them last Wednesday afternoon. It is only a five-minute drive from my house to the shopping center. I am waiting for the red light to change to green. In front of me is a small car. The light turns to green and I am ready to shift from N to D. I expect the car in front of me to go ahead. Know what happens? The dame shifts to R and hits me. Not too hard. So we both stopped and she got out. Her face was as red as a beet. She told me she didn't know how she did it. We checked our cars and there was no damage.

"Then, three minutes later, I am in the parking lot looking for a spot for my car. Bang—I get it in the rear of my car! So I stop and get out. There is a young man and he beats me to it

"All my fault First time I have been out by myself.'

"Only damage is to his bumper and we let it go at that. I told my wife, the way I felt, I wanted to leave the car there and walk home."

Now Mike is right in what he says about being careful at a red light. And we might as well add also at a stop sign. I have had several close experiences at red lights with the car in front of me: One day the driver in front gave his car "the gun." He shot ahead—and then stopped almost dead. From some place—seemingly from nowhere at all—a woman with a baby carriage appeared in front of him. I wasn't too close because experience has taught me to leave a safe margin of distance.

I find this rule works One day we were going east on a three-lane section of a city parkway. I was in the left lane. The car in the right lane decided to make a left turn, cut off the car in the center lane, cut off the car in front of me, which had started and then stopped—and we were just a few inches away from a three-car smash-up

I wish the highway authorities would check over the access roads for stop signs—wherever there could be disaster. Often you find two lanes from a main road going into the access road to the highway You are going in the right lane. There is a car in the left lane. Then he shoots ahead—not realizing the two lanes blend into one. And just where do you go?

Take another look at the access lane and the car ahead of you. Suddenly he stops. Why? Because he can't find a safe break in the traffic. And it may even mean a wait of several minutes. Don't honk your horn. Why unnerve him? Why even try to force him onto the highway? The smash-up can also involve your car.

The "hidden driveway" is a death trap. Yet it exists and it is time something is done about it. Suddenly the car in front of you slows down, forgets to give a right signal notice—and almost vanishes into a hidden pathway. You step on your brakes and the car behind you plows right into you..

Time and again people ask me the same question: "What do you do when the car behind is tailing you?" If I am in the right lane then I got a problem. If I can get into the left lane, I do so. If he follows me, I know I have a nut behind me. I head for the nearest gas station and get off the road. I can call on the phone and tell my story to the police. But, if I am in the left lane, then I know normally the driver wants me to get to the right lane so he can go ahead. But, suppose I can't do this in safety? I once had a police car behind me blowing the siren for me to move. But I couldn't get off that lane for some time. When I saw a safe break in traffic, then I did so.

It can happen that the car behind you and the one in front of you on the right lane may meet. How? You are in the center lane of a three-lane highway. The car behind you will shift over to the left lane. The car in front of you in the right lane shifts over in front of you and then heads for that left lane. In such a case, if you feel it is going to happen, slow down! The worst takes place when they both meet in front of you in the center lane.

When you are in bumper-to-bumper traffic, this is no time for the wife to argue with you. Or for the kids to start up. Or for the mother-in-law to make suggestions. Brother, concentrate—because anything may happen—and usually does

HA, HA, EAT IT UP, SUCKERS.. THIS IS THE SHOW, YOU'RE PAYING FOR IT...

MINUTES LATER, MR. HERO APPEARED BEFORE THE OFFICIALS IN THE TIMERS STAND...
SORRY, GENTLEMEN, THE WHOLE SUSPENSION IS OUT OF LINE, I WON'T BE ABLE TO CONTINUE WITH THE COMPETITION...
BUT, MR. STORMER, THE CROWD HAS COME PRIMARILY TO SEE THE DUEL BETWEEN YOU AND JACKSON...

IF WE GAVE YOU SOME EXTRA TIME, DON'T YOU THINK YOU COULD MAKE THE NECESSARY REPAIRS!
NO, NOT TO MY SATISFACTION... THAT'S EXPENSIVE IRON I'M RUNNIN' AND I DON'T WANT TO CHANCE CRACKING IT UP.. BESIDES MY CONTRACT SAYS I RUN ONLY WHEN IT SUITS ME

MAYBE SO, BUT IT LOOKS LIKE WE'LL NEVER KNOW FOR SURE ..HERO'S MOVIN' ON TO ANOTHER STRIP.. I'LL PROBABLY NEVER GET ANOTHER CRACK AT 'IM.

WELL, NO POINT IN CRYING. LET'S GET ON WITH IT...
YOU CAN BEAT 'IM, SCOT...
